BDL-1601

Bundle that consists of 1 HS-1600T with 3x PTC-140T in a HC-800 case

Quick and easy

2 cases house this full live production set. Full connectivity is assured by only using 4 CAT cables and one power source. This unit brings **camera control, video switching, streaming and recording** into one.

Single Wire concept

The Pan/Tilt cameras are powered by an HDBaseT connection. This means that you can have a complete three camera streaming production station that's connected with a **single wire** per camera.

This single wire transports all signals in 1080P, the control data and power the camera up to 70 meters from the production station.

PTZ camera

20x optical zoom, 10 digital zoom. Supports H.264 /H.265 video compression and dual stream output. Low Noise CMOS effectively ensure high SNR of camera video. Advanced 2D/3D noise reduction technology is also used to further reduce the noise, while ensuring image sharpness.

Dv Cloud Professional

This set also includes a recording and streaming device. With the built in streaming unit a preset address can be given to the unit and a user just has to activate the stream on location. This product supports SRT for reliable streaming.

BDL-1603

Bundle that consists of 1 HS-3200 with 3x PTC-140 cameras (in an HC-800 case) and one RMC-300A (in an HC-600 case) controller

BDL-1603 is a complete production ready bundle with three cameras and a camera controller. The beating heart of this bundle is the HS-3200, our flagship MobileCast workstation with built in streaming and recording. Three PTC-140's are included and are perfect for any small to medium sized production with broadcast quality. You can connect up to 12 cameras or other sources to the HS-3200. For controlling your cameras we include the RMC-300A. HC-800 and HC-600 are the carrying solutions for this bundle, with room for three cameras, the controller and extra space for cables*.

The **HS-3200** brings a new level of simplicity to a professional portable workflow. Setting up is a breeze with its "suitcase" design whilst maintaining all professional broadcasting features such as chromakeying and extensive PiP options. And thanks to its built-in H.264 web streaming encoder, you can stream your show to virtually any CDN like YouTube and Facebook in no time. HS-3200 is also seamlessly compatible with our own [dvCloud](#) service.

The included **RMC-300A** is our brand new camera controller. This completely digital controller works with either serial control or DVIP cameras over a network. Up to 24 cameras can be assigned to this controller.

BDL-1607

Bundle that consists of 1 Showcast-100 with 3x PTC-280's in a HC-800 case

Showcast 100 All-In-One production set

Innovative, Compact, Easy to use and All-in-one, the ShowCast 100 is a brand new 4K 4-Channel Touch Panel Switcher that features 7 major functions. It can switch video, overlay text and graphics, control cameras, live stream, record, and mix audio all from a single unit. Similar to a tablet, the 14-inch touch panel allows easy and intuitive access to switcher functions.

PTC-280 Camera

Datavideo is introducing the 4K50/60p PTZ camera lineup which includes the PTC-280 Professional PTZ Camera that can be easily controlled via traditional RS-422 serial port or IP remote control via DVIP (Datavideo proprietary protocol) or Sony VISCA over IP.

BDL-1608

NDI Hybrid Classroom bundle with the iCast 10NDI a hybrid event switcher designed for streaming, recording, and conferencing with Zoom, MS Teams, and other platforms. The TPC-700 simplifies control. Together with 2 NDI camera's and HDMI encoder this bundle provides a variety of applications.

Key Features

Made for Hybrid events

iCast 10NDI is a Hybrid event switcher designed for classroom, lecture capture, conferencing with all the I/O needed for producing, streaming, recording, and conferencing with Zoom, MS Teams, and other platforms.

Touch Panel Control

An intuitive touch screen interface with presets for screen layout settings, camera angles, and buttons for activation the stream and recording for your event.

Multi-camera production

Don't limit yourself to a single camera for your Zoom class. This solution allows you to have multiple camera angles to create a professional presentation.

NDI Hybrid Classroom

Elevate your Zoom class by using professional video equipment. If you are doing a corporate presentation or a lecture for your class, you want your presentation to look captivating and engaging. Using two cameras and a video switcher gives you more versatility when it comes to a number of different camera angles you can have. In addition, the use of NDI technology in this solution allows you to streamline your workflow.
